User taken through
phone's permission
flow

Cassandra Lang

For this first iteration we will want to capture steps and sleep

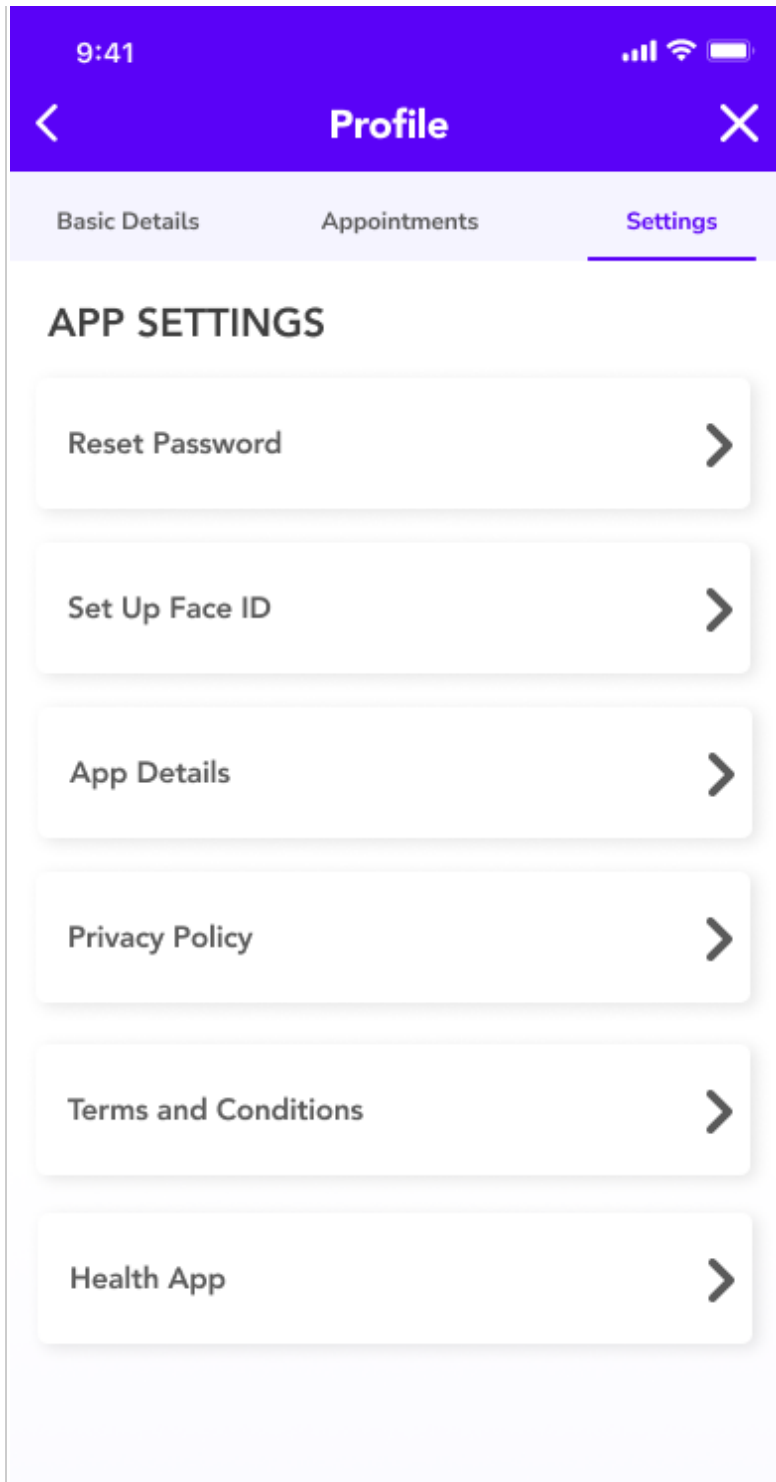

Designs - Set Up:

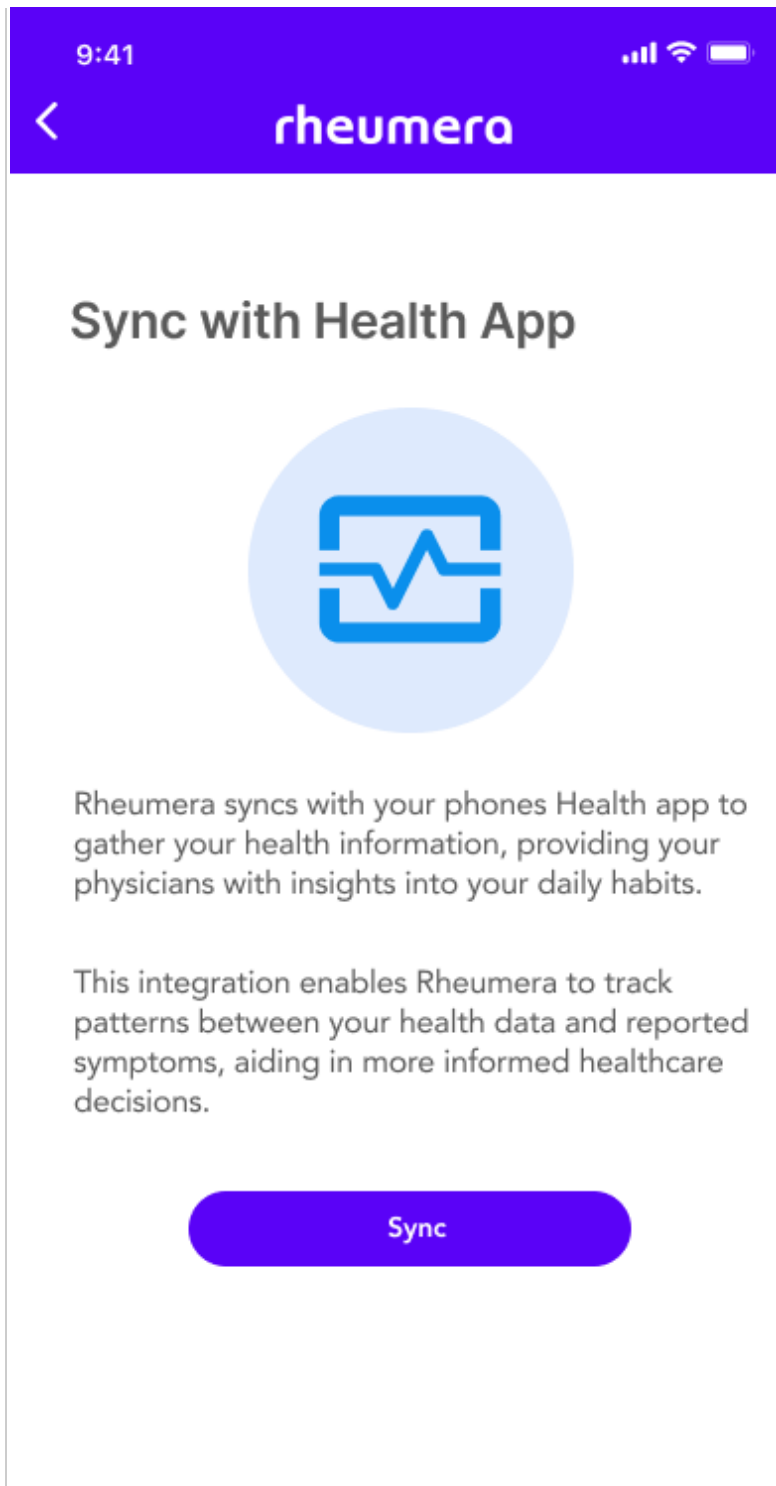

Sync Your Health App!

Give you physician the full picture easily by
sharing your daily health data!

Sync Now

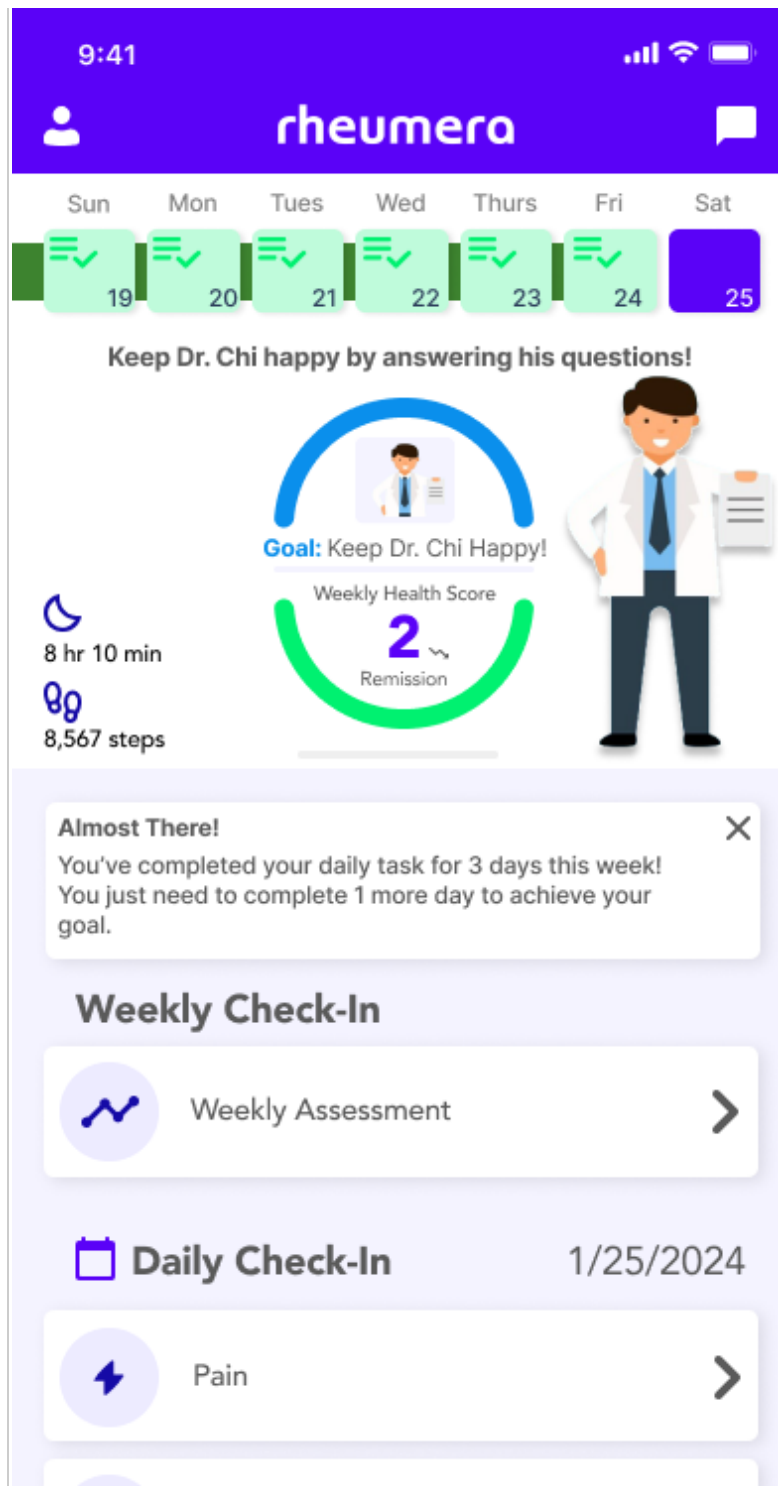

Logout

Home screen update:

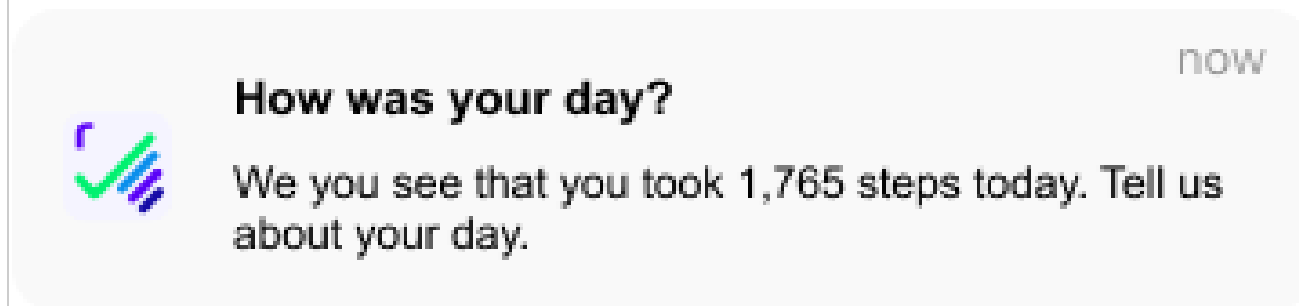

Once connected the home screen will show steps and sleep with an icon to the left of the main circle. If the user has not set up the sync yet this will not show.

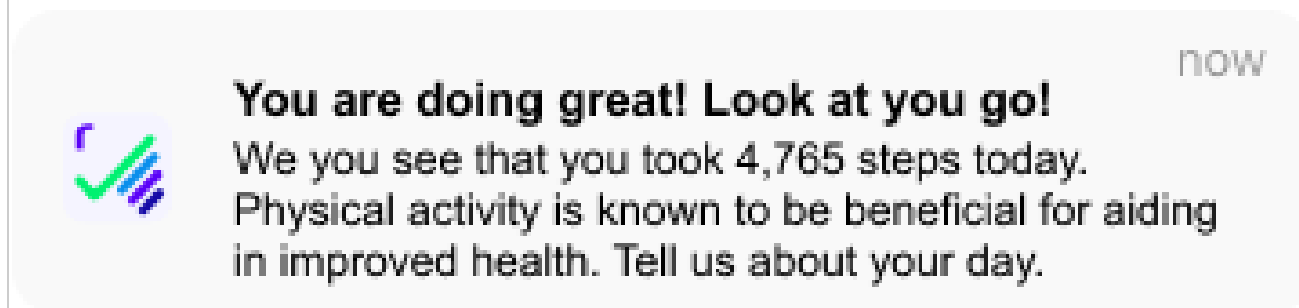

Evening Question - Steps

Trigger: In evening - How was your day - daily - 5 PM - Below 2,000 steps

Trigger: In evening - How was your day - daily - 5 PM - Above 2,000 steps

Question - Will not show up on the main list on home screen.

Activity

How was your day?

Additional Comments

Confirm Activity:

4,765 steps

Save

Morning Question - Sleep

Trigger: In the morning – How did you sleep?

now

How did you sleep?

It's important to get good sleep to help your body heal and function properly.

Question - Will not show up on the main list on home screen.

Sleep

How did you sleep?

Quality:

Good

Confirm Duration:

8 hr

10 min
